

## What the parents said.

---

- I know I took the exam 2 years ago with my older daughter, but can I take it again with my younger daughter? I want to spend time with her too.
- I am very pleased with the GCSE results, my Y5 daughter got a C and my Y11 daughter got a B. (First time the parent had ever phoned the primary school)
- We want our children to come to MA (school) because they will be proud of their language there because they will study with you. Please don't leave. (prospective Bengali parents)
